

HappyFit.

We like to say the HappyFit is made for those with a 'keg' and not a 'six-pack' but this vest is much more than just a larger cut. A more relaxed fit is less demanding on its relationship with the torso while the Side Flex Panels & Segmentation ensure the integrity of a customised fit and feel. Larger arm holes give a more traditional array of movement. If you've been feeling like other vests hug a little too tight, a HappyFit vest is the one for you.

ProFit Short Asymmetrical.

Created to combine high performance impact protection with comfort and tactical adjustability. These are the lightest weight vests in the Follow line. Realising that different riders require different segmentation; we create the two added side flex panels with a cinch waist belt to keep the vest in place. Finishing it off with neoprene zipper protection to stabilise and secure the YKK zip in place.

ProFit.

ProFit vests are built for round the clock performance and comfort. A tapered outline acts as a bond between your torso and the vest ensuring it is always playing its part in your protection. A complete stitch through foam panel provides the rider with mobility, flexibility, and motion.

Ladies ProFit.

Along with our team of female riders we have adapted the principles of our Profit Short Vest into a customised feminine shape. Slightly thinner at the waist gives a secure locked in feel while allowing for the vest to sit secure and comfortable across the chest. The tapered outline acts as a bond between the torso and the vest. A complete stitch-through foam panel ensures the vest provides the female rider with mobility, flexibility, and motion.

Ladies ProFit 2.

Single Segment Side silhouette fits slightly tighter than the Ladies ProFit yet leaves the vest to sit securely and comfortably across the chest. The tapered outline slims at the waist and acts as a bond between the torso and the vest. A high performing yet accommodating cut that serves as protection for when you need it most.

Ladies Flexfit.

Specifically designed for the Lady who wants style and mobility without the vest having to fit too tightly. The strategic segmentation and panelling of the Ladies FlexFit acts a conduit between the natural movement of the body and the vests desire to hug your torso. Producing the perfect blend of performance and comfort only achieved by us, Follow. Try it for yourself.
